Business	video conferencing, collaborative working, business networks
Entertainment	multi-user games, radio players, sports, books
Download Services	software, upgrades, music, film
Web Storage	Google docs, <a href="#">Drop Box</a>
Online mapping and route planning (not Sat Nav).	Google maps, <a href="#">AA Route planner</a> , <a href="#">RAC route planner</a>

- Record every source of information in your bibliography and make sure you use different types of information.
- a range of information types should be taken to mean at least four different sorts of information, eg extracts from websites, screenshots, journal articles, sound clips, quotes from discussion groups etc
- Write about each type of online service and illustrate it with your chosen examples. Remember your audience. Use your sources. Try to really give a feel for what the service has to offer.
- Describe the advantages and limitations of each example that you have used. Aim to give a clear and balanced picture of the scope and limitations of these services. Make sure you include the following:-
  - Target audience
  - Benefits and drawbacks
  - Possible enhancements
  - Fitness for purpose
  - Non-internet alternatives
- Make some concluding comments about the current scope and limitations of the Internet as a whole.

### UN E Government development index

Sri Lanka improved its eGovernment rank in UN eGovernment Development Index from 115th place in 2012 to 74th place in 2014

- Yes, I agree that eGovernment in Sri Lanka has improved considerably
- No, this is an over estimation. eGovernment in Sri Lanka has not improved enough to achieve such a higher rank
- Whatever the UN Report says, improvement in eGovernment is yet to provide citizens basic needs though on line services
- I do not know enough about UN eGovernment survey to express my view

### Socialized medicine

International Encyclopedia of the Social Sciences

socialized medicine publicly administered system of national health care. The term is used to describe programs that range from government operation of medical facilities to national health-insurance plans. In 1948, Great Britain passed the National Health Service Act that provided free physician and hospital services for all citizens.

## Resources for Trainers

These sections draw on the ITrainOnline partners' experience in training and materials development, offering a collection of resources for trainers which focus on Internet and ICTs training in NGOs and community organizations.

### Effective Training

Resources to help you to become a more effective trainer and develop training strategies for your organization.

### Multimedia Training Kit

The Multimedia Training Kit is a series of modular training materials for use in workshops developed by ITrainOnline partners and others. The materials share a common easy-to-use format, and are freely available for non-commercial use.

### Topic-Specific Resources

Annotated links to resources on specific topics, from Internet basics to advanced technical skills. All resources listed include materials specifically for trainers, such as handouts, slide shows, and workshop outlines.

# DATABASES

- **Developing Library Network (DELNET)- Through NLDSB**
- DELNET has been engaged with the compilation of various union catalogues of the resources available in member libraries. It has already created the union catalogue of books, union list of current periodicals, union catalogue of periodicals, CD ROM databases, database of Indian specialists, database of theses and dissertation, database on periodical, articles union list of video recordings and several other databases. Objectives of DELNET are to promote resource sharing among member libraries to undertake scientific research in the area of information and science and technology to create new systems in the field, to offer technical guidance to member libraries on collecting, storing, sharing and disseminating information, to coordinate efforts for suitable collection development and to reduce unnecessary duplication whenever possible. Searching facility of DELNET is available for readers in the National Library.

UNIT 01

WHAT YOU SEE

Activity 1

Act out

It's Saturday afternoon. Sandria and her friends are out in the garden.

Venura : Hi Rajan! We've been waiting for you.  
Rajan : Hi everybody! There's something wrong with my bicycle.  
Venura : Why? What's wrong?  
Rajan : I don't know. Maybe it's the chain.  
Venura : Why don't you take it to a mechanic?  
Rajan : Yes, I must. By the way, I have to leave a little early today.

# 1 Information and Communication Technology

In this chapter you will learn:

- how to identify data and information
- what a system is
- the systems we come across in our day to day activities
- characteristics of quality information
- Information and Communication Technology
- applications of Information and Communication Technology
- evolution of the computer

### 1.1 Data and Information

The numbers, words, images and symbols which do not bear a meaning, when standing alone are called data. While we can arrive at meaningful information by arranging and processing data, we can use them to make decisions also.

Submitting data for processing is called "Input" and the result we get after processing is called "Output." We can call the collection of all these components above a "System." Hence the purpose of a system is to receive data, process and store them and provide the results when required.

## Welcome to ITI Institutional Repository...

ITI is Sri Lanka's pioneer Scientific Research and Development Organization. It is committed to elevating the country's technological status by providing demand-driven, self-sustaining research and technical services to the industrial community.

We are now pleased to present a comprehensive Institutional Repository (ITI IR) of our technological assets in digital format. The ITI IR features digital archives of these, research reports, presentations, teaching materials, speeches, video recordings etc. Most items in our repository are freely accessible by all except for some special items with limited access due to copyright restrictions.

If you have information materials that you would like to share with your colleagues, please contact the ITI IR Team. We will be willing to incorporate them into ITI IR.

Thank you,  
ITI IR Team

In simplest terms, a digital repository is where digital content, assets, are stored and can be searched and retrieved for later use.

A repository supports mechanisms to import, export, identify, store and retrieve digital assets.

### Why use Digital Repository?

- It provides a single place for sharing the results, via open access
- It provides global awareness of scholarly output and research initiatives
- It provides long-term preservation of all types of digital materials
- It provides for easy and accurate retrieval using advanced tagging and searching features.

### WEATHER FORECAST FOR 20<sup>th</sup> NOVEMBER 2017

(Issued at 05.30 a.m. on 20<sup>th</sup> NOVEMBER 2017)

**There is a high Possibility for afternoon thundershowers over the island.**

Showers or thundershowers will occur at most provinces over the island after 2.00p.m.

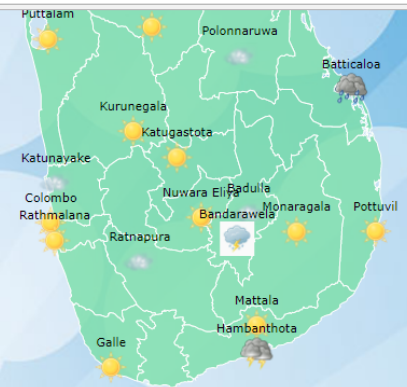

Showers will occur at several places in the Northern, Eastern and Western coastal areas in the morning too.

Fairly heavy falls (about 75-100 mm) can be expected at some places particularly in the Sabaragamuwa province and in the Kaluthara, Galle and Matara districts.

Misty conditions can be expected at some places in the Western, Sabaragamuwa and Central provinces during the morning.

**There may be temporary localized strong winds during thundershowers. General public is kindly requested to take adequate precautions to minimize damages caused by lightning activity.**

The Colombo Museum as it was called at the beginning was established in January 1877. It founder was Sir William Henry Perceval, the British Governor of Ceylon (Sri Lanka) at the time. The Royal Asiatic Society (CB) was instrumental in the Auditorium Booking of Gregory on his appointment as Governor in 1877 the need for a public museum with much difficulty. The approval of the legislative council was obtained with the Mobile Exhibitions of the Public Works Department, J.G. Smith was able to prepare the plans for new structure on 1 Visitor Informations. The construction was completed in 1876 and the Museum commenced its functions in the following year.

Libraries have been providing access to digital content to their users for over two decades. Until recently this content largely comprised access to aggregated databases of journals, newspapers, popular magazines and technical and specialized monographs. However, the recent explosion in availability and popularity of eReaders and tablets, along with a corresponding increase in the availability of commercial eBooks, has seen a growing demand for downloadable eBooks in public libraries. This scenario offers libraries many opportunities. The availability of digital content, downloadable onsite at the library or remotely through online catalogues has the potential to develop a digital culture of reading that will benefit users, authors and publishers. However, the current situation facing libraries is anything but positive. There are presently many difficulties, as
